

## **THE ARTWORK IS MAN**

**UTOPIA TOOLBOX, D, Juliane Stiegele 2017**

**A person from your neighbourhood becomes the protagonist of a special evening, highlighting his/her biography. In this case it was the man from the and newspaper shop at Agnes Street, Munich, Germany. How did he become what he is today, which of his dreams did he realise, which are still sleeping? What does his shop mean to people of the neighbourhood?**

**The neighbourhood listened to his interview while his favorite drink was served for everybody. His favourite music had been played at the beginning and the end of the evening.**

**A module you can easily transfer to your neighbourhoods. Community instead of watching tv.**
